Ntiyiso Adoration Bila

National Diploma in Computer Science (Completing 2026) | Tshwane University of Technology

adorenti12@gmail.com | +27 68 065 7006 | Johannesburg, South Africa | dandevportfolio.vercel.app | github.com/danielAd0

PROFESSIONAL SUMMARY

Motivated final-year Computer Science student at Tshwane University of Technology, completing a National Diploma in 2026, with hands-on experience across full-stack development, database management, and software design. Proven ability to collaborate in team environments, translate technical concepts into clear documentation, and deliver working solutions under real project constraints. A fast learner who brings structured thinking, attention to detail, and adaptability to any IT or graduate role — supported by strong multilingual communication skills across five languages.

CAREER GOALS

- To develop deep expertise in artificial intelligence and software engineering, building solutions that address real challenges in education and public services across South Africa.
- To grow into a well-rounded software developer with strong foundations in both front-end and back-end systems, eventually transitioning into cybersecurity and building a career at the intersection of secure, intelligent software.
- To contribute to innovative, technology-driven projects within a professional environment that challenges me to continuously learn, collaborate, and deliver work that creates tangible value for end users and organisations alike.

CORE SKILLS

Technical: Java, Spring Boot, JavaScript, React, HTML, CSS, SQL, PL/SQL, Oracle DB, MySQL, Git, GitHub, NetBeans, VS Code

Analytical: Problem solving, Stakeholder collaboration, Technical documentation, Data-driven thinking, Solution design, Process-oriented thinking, Cross-functional delivery

Languages: English (Fluent), Xitsonga (Native), Sepedi (Fluent), IsiZulu (Proficient), Afrikaans (Conversational)

PROJECTS

Personal Portfolio Website

Dec 2025 – Jan 2026

Designed and deployed a personal developer portfolio — dandevportfolio.vercel.app

- Built with React.js and deployed via Vercel with responsive design and custom UI components.
- Serves as a live professional showcase for recruiters and potential collaborators.

EduMind AI — AI-Powered Student Support Platform | Group Project | SWP316D

2025

- Co-designed a unified AI platform combining a RAG-based study assistant, student feedback analyser, and predictive at-risk analytics module.
- Led the software specification phase, producing formal UML documents (Use Case, Activity, Sequence Diagrams) and structured Use Case Descriptions.
- Contributed to full technology stack: React.js, Spring Boot, Python/FastAPI, scikit-learn, PostgreSQL, ChromaDB.

TextSpectacles — Java EE Web Application | Internet Programming | INT316D *2025*

- Built an MVC web application using Java Servlets and JSPs, deployed on GlassFish 4.1.2 via NetBeans.
- Implemented servlet context parameter management, proper scoping across request/session/application contexts, and dynamic JSP rendering.

EDUCATION

National Diploma in Computer Science | Tshwane University of Technology *Jan 2022 – Dec 2026*

Key Coursework: Systems Analysis & Design, Database Systems & SQL, Object-Oriented Programming (Java), Web Development & Internet Programming, Software Development Principles, Mobile Development (Kotlin, Jetpack Compose)

National Senior Certificate | Education Alive School *2017 – 2021*

INTERESTS & ACTIVITIES

Hackathons & Collaborative Tech Events, Problem Solving & Analytical Challenges, Football, Reading, Gaming
